## Million Confirmed Drunkards in U. S. One-third of Them Die Every Year and Ranks Keep Full.

Philadelphia, April 8.--One million persons in this country are confirmed inebriates. Of this number one-third die yearly as a result of drink, yet this number is annually made up by recruits of the army of drunkards.

This was the substance of a paper read by Dr. DeLaney Carter, of the New York Medical Society for the study of alcohol and other narcotics.

This problem, he asserted, exceeds in sociological importance anything known to modern civilization. He urged institutions for their treatment, lectures, educational efforts and every legal method of restraint that can possibly check the influx of new drunkards.

## S.S.S. CURES OLD SORES

S. S. S. cures Old Sores in the very simplest way. It just goes into the circulation and removes the poisons and impurities which are keeping the place open. Then the sore or ulcer heals because the infected flesh tissues receive nourishment and healing properties from the blood, instead of irritating, disease-laden germs. Every symptom of an old sore suggests diseased blood. The inflammation, discharge, discolored flesh around the ulcer, and the fact that it resists every form of local treatment, and even returns after being removed by surgical operation, indicates to what a great extent the blood is polluted.

S. S. S. removes every trace of poison or infectious matter from the circulation and makes the bloodstream pure, rich and healthy. S. S. S. reaches hereditary taints, and those who are suffering from an old sore, which came without any apparent cause, could not do better than take a course of this great blood medicine to remove the inherited taint. S. S. S. cures old sores for the one simple reason that it purifies the blood. Book on Sores and Ulcers and any medical advice free to all who write.
